LET'S

LEADING **ENABLING** TECHNOLOGIES
FOR **SOCIETAL** CHALLENGES

Italian Presidency
of the Council
of the European Union

italia2014.eu

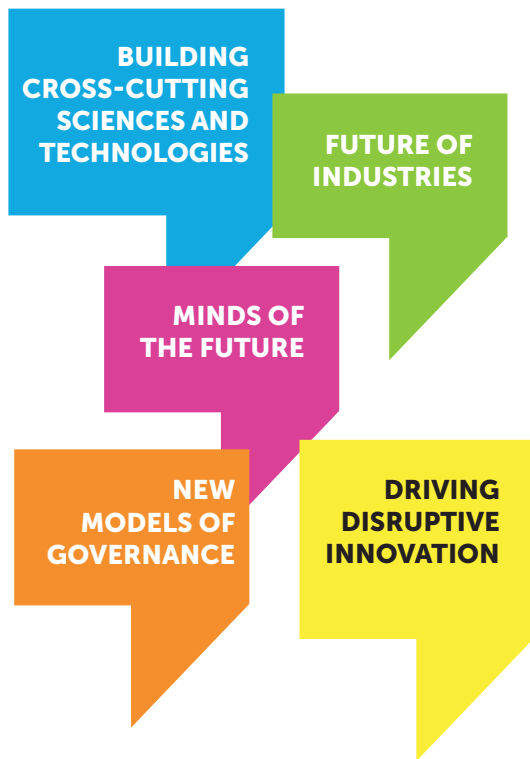

The aim of LET'S 2014 is to discuss the role of the **Key Enabling Technologies** pinpointed by **Horizon 2020**, the European Union Framework Programme for Research and Innovation, in bridging the gap between excellence in scientific and technological research, innovation in industry and access to the European and global markets.

LET'S 2014 is a conference bringing together more than **1000 delegates** from all over the world to discuss how Europe can support the growth and the creation of new jobs and face societal challenges through new products, processes and services, creating opportunities for European actors.

Speakers and delegates will represent many different categories of stakeholders in the European and global arenas: researchers from both private and public organizations, investors, enterprises, SMEs and national and European policy makers will merge **industrial leadership** and **societal challenges** in a new vision for a European Renaissance.

LET'S 2014 will focus on the **NMBP** perspective of **Nanotechnologies, advanced Materials, Biotechnology and advanced manufacturing Processing** and will point out how the industrial system should be able to develop the industry's ability to integrate - through a systemic approach - creativity, culture, knowledge and competitiveness.

A VISION TOWARDS A NEW RENAISSANCE
FIVE PATHS ACROSS THE CONFERENCE
